LEAD THE WAY

LEVERAGING PSYCHOLOGICAL SCIENCE TO IMPROVE THE WORKPLACE

FEBRUARY 6-10, 2019, FORT WORTH, TX
THE WORTHINGTON RENAISSANCE
SCP MISSION

We represent psychologists who consult with individuals, groups and organizations in order to catalyze growth and change. Whether we work with start-ups or multi-nationals, for-profit or non-profit, educational, healthcare, corporate or government, we strive to add value for the benefit of individuals, institutions, and society. We achieve this by expanding knowledge and the transfer of psychological science to real-world settings, providing education, mentoring and thought leadership, and advocating for psychological consulting in the context of an inspired community. Please allocate as many votes as you can to Division 13 and consider taking advantage of our conferences or educational functions.

SCP VALUES

The Society of Consulting Psychology wants anyone who participates in our society or our events to feel a sense of Inspired Community. We do this by bringing the following values to life:

- **Engagement** - Ensuring members and participants feel the organization adds value to their business, personal and professional experience;
- **Inspiration** - Facilitating others’ vision for themselves, their organizations, and the profession;
- **Authenticity** - Allowing others to be themselves, and express themselves, in ways that are open to and inclusive of others’ different selves;
- **Challenge** - Helping each other learn, develop, and grow as professionals;
- **Impact** - Making a difference for our members, other participants in the organization, our clients, and their organizations.

SPIM

SOCIETY OF PSYCHOLOGISTS IN MANAGEMENT

The Society of Psychologists in Management (SPIM) unites psychologists committed to creating extraordinary organizations. SPIM translates research and real world experience into practices that empower members to be impactful and effective leaders, as well as coaches and consultants. SPIM events are safe environments to discuss challenges, formulate solutions, and receive support through rich learning experiences. SPIM values camaraderie, wisdom, and scientific rigor in the service of transforming leaders and organizations.

PSYCHOLOGIST MANAGERS SAY THEY JOIN SPIM BECAUSE IT PROVIDES:

- A refreshing approach to their professional development
- A community of members from all fields of psychology (although most are clinical/counseling and I/O psychologists) including
  - Many who did their original professional work in their specialty before becoming high-level organization leaders
  - University professors and administrators, leaders of businesses, nonprofits, and consulting firms, managers of psychologists and/or many other kinds of employees, and independent consultants
- An annual conference that is typically a more relaxed and intimate setting to learn and network with psychologist manager colleagues, sessions that are highly interactive and engaging, and APA CE’s
- A warm and welcoming environment with activities such as new attendee “conference buddies” and mentoring opportunities
- Ways to stay connected to one another throughout the year via informal local gatherings, social media groups, The Psychologist-Manager Journal, and networks of colleagues
Welcome to the Joint SPIM/SCP “Lead the Way” Conference! As Members of SPIM, SCP, both, or neither, we expect you will have the opportunity to experience the best of both organizations as well as our traditions and cultures. But more than that, we hope that you enjoy the rich diversity of colleagues and presenters at this joint conference, providing unique experiences which you may never have gotten in either group!

We are especially pleased to welcome Keynote Speakers who will be touching on issues that are important, right now, to our members. And we are providing conference attendees with opportunities to gain tangible knowledge and build professional skills through sessions focusing on The Fundamentals of Consulting Psychology Book Series, through engaging with the publishers of several important Tools of the Trade, and, of course, through providing a rich array of Workshops and Concurrent Sessions! And in a completely new twist to our conferences, we are going to spend an entire Summit Day with six current and just-retired CEO’s and Presidents who will share their experiences in leadership, what they learned, and their advice to us as professionals supporting them!

So, come and enjoy the sessions, reconnect with some old friends, make some new friends, and be open to the many distinctive opportunities here that we hope will make this a positive and powerful experience for you!

We are glad you’re here!

Helping organizations identify and develop leadership worth following
Welcome to fabulous Ft. Worth, Texas, and the 2019 SPIM/SCP joint conference! We have four and a half days of stimulating sessions planned. When you are not attending thought-provoking presentations or connecting with colleagues, Ft. Worth has plenty to keep you entertained. Invite a colleague to explore the area attractions and restaurants. If your excursion partner is a student or an early career professional who may be interested in joining our community, that’s even better!

The theme for this year is, **Lead the way: Leveraging psychological science to improve the workplace.** By incorporating psychological science into leadership development at every level of an organization, we ensure individuals develop not only their task-related skill sets, but also their emotional maturity and ability to connect with others to achieve success.

This joint conference was borne out of the belief that when thought leaders collaborate and pool resources, the synergy results in new and exciting ideas. While the members of our two organizations share a lot in common, each of us brings distinct experiences and insights, and we apply our knowledge in a wide range of settings. The conference agenda reflects this variety and includes something for every interest and level of expertise. For example, not only will we hear from consulting and management experts, we will also hear from the executives and others who benefit from our partnerships. We hope you were drawn by the eclectic mix.

We will have met our goal if all attendees deepen their knowledge in some areas while also being exposed to new and unexpected topics. Please let us know what you think by sharing your feedback in person or via the mobile app.

Year after year, we hear that the vitality and expertise of the attendees keeps people coming back. Thank you for joining us. We sincerely hope you enjoy the conference.

This is possible by a six-step process to transform a Brilliant Jerk into a Brilliant Leader. This interactive presentation will help participants understand a 6-step process to transform a brilliant jerk into an inspiring leader, and consequently, reduce suffering in the workplace, improve the organization’s cultural climate, and increase overall leadership and organizational effectiveness.
